

## Hiding Closed Accounts From Online Banking Home Screen

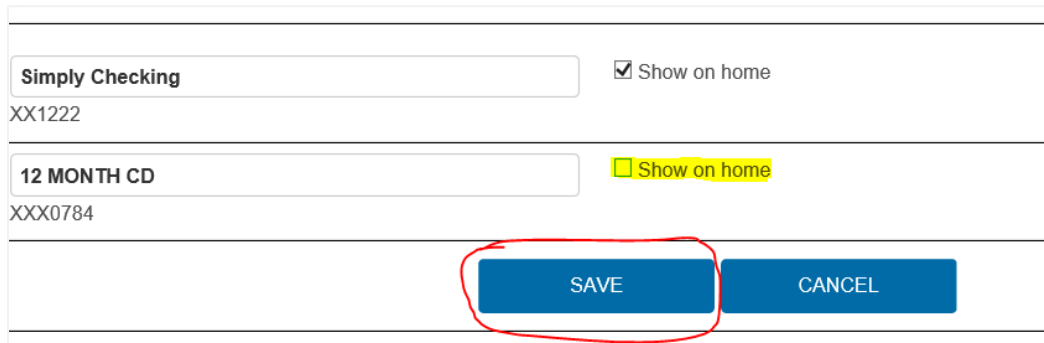

Rivers Edge Bank has added closed loan accounts to online banking. If you do not wish to see your closed loans in your home listing, you do have the ability to “hide” them. Hiding the account will only apply to the home screen; you will still see it in your list of accounts under “Show all accounts” and it will be in your list of accounts on the transfer tab. If you want the account to be completely removed, please contact Rivers Edge Bank. Below are the steps for hiding an account.

*Hiding accounts cannot be done from the Mobile App, but the order can be changed. Log in to the Mobile App, choose the “Sort” option at the top of your screen, hold and drag the account to your preferred placement.*

- **Log on to your Retail Online account and click “Edit Accounts”.**

- **Uncheck the account(s) you do not want to show and press “SAVE”.**

- **The accounts will still show in your list of accounts, but not on your home screen. To view the account, click show all accounts.**
